St. Andrews Suspension Bridge
Glasgow Green, Glasgow, Scotland

The Rev. David R. Graham
June 19, 2009

In order to protect the women of Iran, we, Citizens of the United States, demand that the Commander-in-Chief, United States Armed Forces, immediately order joint, full-spectrum military operations against the Iranian regime with the mission to:

- 1) Kill the IRGC and its Basiji militia;
- 2) Remove & Replace the Iranian political cadre and hang those who have committed crimes against humanity;
- 3) Hang the Iranian mullahs and ayatollahs unless they have publicly condemned the Iranian political cadre and accept disestablishment and dispossession;

- 4) Assign the lands and all other possessions of mullahs and ayatollahs to lay people who will apply them to pacific pursuits, especially providing water and trees to the citizens of Iran;
- 5) Raise up an indigenous, self-organizing Iranian political structure that is not based on Koran or Koranic scholarship, and then depart.

We further demand that C-i-C, US Armed Forces, immediately invite and coordinate the participation of US allies in these operations and without reference to the United Nations. This job has to start now and cannot await dithering and dissembling through “international discussions” by its target.

We further demand that C-i-C, US Armed Forces, commit the entire population and resources of the United States to support these operations through to their full and successful completion: unconditional surrender by the Iranian regime.

We demand, finally, that these operations to protect the women of Iran commence with the utmost celerity, recognizing that no engagement is entered with the learning or assets that subsequent prosecution of that engagement generate. This job starts now. Therefore these demands.

The Rev. David R. Graham
Theologian, United Church of Christ
